Lift4 eFoil

Infused with new technology, the near-silent long-range Lift4 eFoil board excels in all areas. Not only does its new battery system allow riders as much as 2.5 hours flying above the waves at a top speed of 30mph, the all-new eBox is infused with tech that significantly reduces vibration and noise so that the rider can be at one with their natural surroundings. "The Lift4 eFoil is undoubtedly one of the top-performing yacht toys on the market, says Northrop & Johnson Senior Charter Manager Adam Fitzmaurice. "The new edition comes in four different sizes, lasts for more than two hours on one charge – extremely impressive. This is the perfect yacht toy for discerning charter guests and owners alike."

liftfoils.comA person wearing a white t-shirt, dark shorts, and a light-colored cap is riding an eFoil board on the water. The background is a sunset with a warm orange and yellow glow. The person is in a crouched position, holding a remote control. The eFoil board is black and has a white fin.

JackRabbit Micro eBike

For those looking to explore ashore and discover their destination, a micro electric bike might be just the ticket. "Ideal for uncovering hidden spots and venturing further afield than a push bike, the JackRabbit Micro eBike is super versatile and small enough for any superyacht toybox," says Sam Powell from National Marine Suppliers. "At only 24lbs, capable of 20mph of speed, with 20-inch all-terrain tires and the ability to fold flat to just seven inches wide, the JackRabbit is a portable powerhouse that allows the rider to tackle and explore any new place or terrain."

Inflatable Games Decks

You don't have to access the water for playtime on board. Challenge your teenager to a game of basketball, a family football match or a couples game of tennis – without worrying that the ball will be lost overboard. Whether your passion is shooting hoops, scoring goals or serving an ace, there is an inflatable games deck to suit every age group. Available in any shape and size, Superyacht Inflatables' sports courts are robust, hardwearing and easy to stow. "Working closely with the owners and crew of various superyachts, we have developed radical and flexible games decks, all custom made to order," says Head of Operations, Mark Peak.

FreeStyle Yacht Slide

Release your inner child and embrace the sheer joy of messing about on the water with the latest inflatable superyacht toys. Ranging from floating islands to entire water parks, inflatables are among the most popular toys for all ages. "A stand-out feature on VICTORIA DEL MAR is the sheer number of toys onboard," says Captain Gary Young aboard the 164' (49.99m) motor yacht. "Perhaps the most impressive is our 36' FreeStyle LS Slide. It goes all the way from the sundeck and rushes you down into the bright blue ocean; it's a must-do."

05**Manta5 SL3**

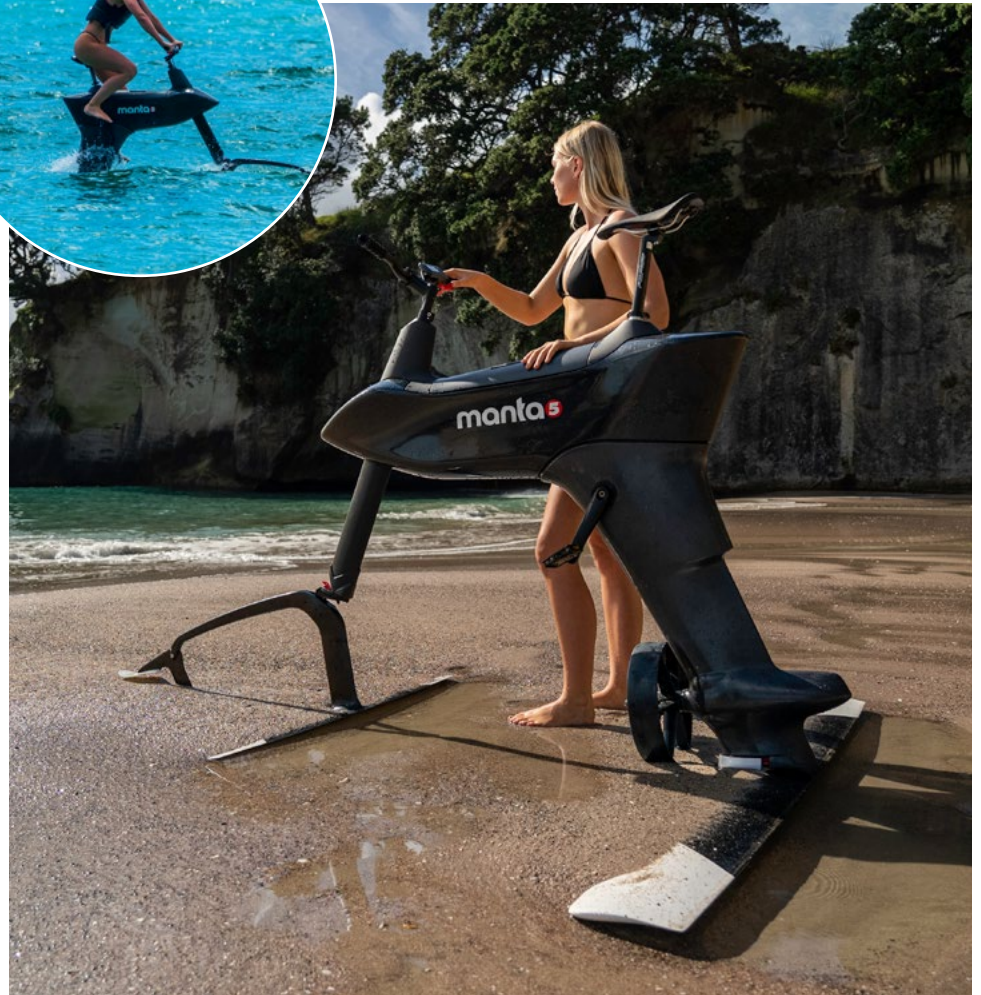

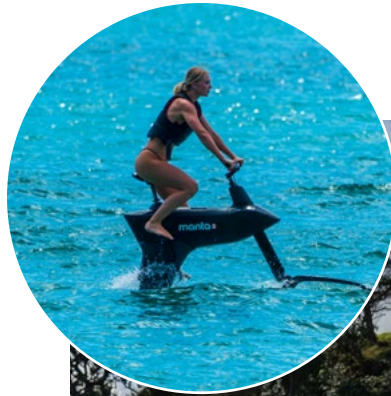

Water bikes are a great way to explore the coastline and keep fit at the same time. Using the latest in hydrofoil technology, the Manta5 Hydrofoil bikes are designed to replicate the cycling experience on the water. Their latest model – the SL3 – is operated much like an ordinary bicycle. Launch from the shoreline or step off the swim platform. "With a single finger on the throttle, you're in the water and good to go," says Mark Peak, Head of Operations at Superyacht Tenders & Toys. "A finger on the trigger is all it takes to launch, accelerate and maintain flight at top speeds." The SL3 can be operated in three modes: electric-only, pedal-only or a combination of the two.

06**SEABOB F5 SR**

Being the classic in sea toys, SEABOB continues to reign supreme as one of the most popular water toys in the superyacht toybox. The most powerful watercraft in the SEABOB F5 series, the F5 SR has seven power levels. "Cruise through the water at a relaxed pace in the lower gear, or increase the gears to experience the impressive propulsion of the F5 SR as it effortlessly glides through the water," says Sam Powell from National Marine Suppliers. "With two rear fins for driving stability, the F5 SR is easy to maneuver while diving beneath the surface. The Black Line design is a new color combination for the SEABOB F5 SR, available in three versions. In addition to its appealing aesthetics, this design also provides increased visual protection for users when driving at high speeds through the water."
